

The St. Louis School —OF— Suggestive Therapeutics AND Medical Electricity

(INCORPORATED).

Degrees Conferred and Diplomas Awarded to Graduates.

This School was established for the purpose of instructing Physicians, Medical Students, Dentists, Trained Nurses and other well educated people, in the science and art of Suggestive Therapeutics; and those who want it are also taught the practical application of Electricity in the treatment of all diseases where it can be used to advantage.

A complete exposition of Psychological Medicine is given, as expounded by Liebrecht, Bernheim, Tuke, Moll, Tuckey, Hudson, etc. The psychological treatment of diseases and the production of anesthesia for surgical operations under hypnotic influence, are thoroughly elucidated by didactic lectures and practical demonstrations upon subjects and clinics before our classes. Furthermore, our students are fully instructed in all the modern methods of Hypnotism, and are favored by the privilege of actual personal practice in handling and controlling subjects in our psychological clinics, under our immediate observation and in-

struction. This enables them to go out and apply this practice at once. Say what we may about what can be learned from books, journal communications and correspondence courses of instruction, there is nothing like OBJECT LESSONS to teach Suggestive Therapeutics. We can teach students more in two weeks by showing them how it is done, by treating patients in their presence, than they can learn in many months from reading and depending wholly upon their own unaided efforts.

We make a specialty of teaching our students the proper treatment, by suggestion, of all chronic, functional and nervous diseases and habits of every kind, and all stubborn diseases that have resisted ordinary methods of treatment. We teach them the kind of suggestions that each patient requires. All intelligent

men and women can learn Suggestive Therapeutics, and they can learn to do effective work with it.

One full session of two weeks every month in the year.

Sessions always open in the evenings of the first Monday of each month.

We give special attention to the personal treatment of all chronic, functional and nervous diseases, and habits of every kind here in our private office and in our school.

Send for our 16-page pamphlet, giving a full list of the diseases we successfully treat, explaining our methods of curing diseases by suggestion in our office and at a distance, and giving terms of treatment. SENT FREE TO EVERYBODY. All sick people should have this pamphlet.

Having been engaged in the active practice of medicine with drugs for so many years, we can offer physicians superior advantages for learning exactly how to make the most out of suggestion in all departments of their practice.

A NEW BOOK.

Send one dollar for our book "Suggestion in the Cure of Diseases and the Correction of Vices." Fourth Edition. This book explains all the methods of mental healing—tells the principles upon which Christian Science, Divine Science, Mental Science and Magnetic Healing do all their effective work. It teaches how to hypnotize; contains the latest, most complete and effective methods for producing hypnosis that can be found anywhere.

 A new and practical system that parents can apply without a physician.

How to control the sex of an unborn child, to make it a boy or girl as desired, has been a riddle that men and women have wondered over since the world began. Only within a few years has progress been made. The best minds of the medical profession have lately been turned to this subject, and Prof. C. Wilbur Taber has now made a thorough study of the results they have obtained, and has written a book that is easily understood by anyone (and gives new ideas of intense practical value). We believe that any husband and wife who carefully read this volume together, and apply the method suggested by Dr. Taber, will find themselves able to choose for themselves the sex of their future children instead of leaving it to chance. SUGGESTION THE SECRET OF SEX is a book 8x5½ inches in size, handsomely printed on heavy paper of extra quality and bound in vellum cloth with gold stamping.

SPECIAL MAIL COURSE N Hypnotism & Suggestive Therapeutics

By HERBERT A. PARKYN, M. D.

The most complete, practical, and comprehensible Mail Course of any sort to-day. It is the result of observation from the personal treatment of over 4,000 cases. These cases have been treated since most of the text books were published.

No text books are required with this course. It is complete in itself. This is not a type-written course of twenty or thirty pages. It covers over 200 pages of printed matter; and each of the thirty parts is neatly bound.

HERBERT A. PARKYN, M. D.

PRINCIPAL AND FOUNDER OF

THE CHICAGO SCHOOL OF PSYCHOLOGY,

The first School of Suggestive Therapeutics established in America.

This Special Mail Course has been published in order to satisfy the demands of many who are unable to spend the time or money required to complete a regular school course in Suggestive Therapeutics and Hypnotism. Over One Year was spent in preparing it for the publisher; and the flattering testimonials which are pouring in from all sides from those who have received it show that the time was well spent.

This work is different in theory and practice from anything taught elsewhere or published in books. Everything is made so clear that a child could apply its teachings.

It tells what to do and how to do it; what to say and how to say it.

The course is printed on fine, hand-made paper, and consists of thirty parts, all of which are shipped at one time upon receipt of \$5.00.

WHAT THEY ARE SAYING!

Norman, Okla., Jan. 13, 1900.
Dear Doctor: I received your mail course sometime back, and to say I am perfectly delighted with it would be putting it too mildly.

I am surprised to know what a great help it will be to me. I have already used suggestion to much advantage.
Thos. W. EWING.

Centerville, Ill., Jan. 19, 1900.
Dear Sir: Your mail course in suggestion received and read with interest. While I have been a close student of suggestion for the past twelve or fifteen years, having followed carefully the theories of Bernheim, Moll Hudson and others, will say that I have never found so much practical information in any book or professional course as I have received by reading your thirty lessons.
J. S. TOWNSLEY.

Detroit, Mich., Jan. 10, 1900.
Dear Sir: I pride myself on having read about everything extant on hypnotism, mesmerism and kindred subjects. I have also made a point of studying the courses of lessons sent out by "Professors" of hypnotism at prices ranging from \$3 to \$100, but for practical utility I have found nothing which in any way compares with your special mail course in suggestion. All of the "Professors" give little or nothing in their courses which is of any value to the practice of Suggestive Therapeutics.

In your course I notice you have carefully avoided connecting occultism or mysticism with suggestion. Your object seems to have been to teach a practical lesson on every page and there can be no question

but that your purpose has been eminently accomplished. No person who takes an interest in Suggestive Therapeutics can possibly be up to date who has not digested your special mail course in suggestion. Yours sincerely, J. LAWSON HALL.

Golthwaite, Texas, Jan. 17, 1900.
Dear Doctor: I have patiently studied your mail course together with other mail courses in magnetism and hypnotism published by the several "Professors," and have read carefully the following books: Hudson's Law of Psychic Phenomena, Tuckey's Suggestive Therapeutics, Bernheim's Works on Christian Science, etc., but will say right here that I consider your mail course is the most complete of any that I know of.

I consider after careful perusal of most of the leading courses that the principles laid down in your special mail course are superior to any others.
E. M. WILSON, D. D. S.

Tacoma, Jan. 15, 1900.
Dear Doctor: I most heartily and voluntarily commend your mail course on suggestion as the only rational and practical method of suggestion and the only one which should be practiced by reputable physicians—or in fact anyone—who wishes to retain his self-respect and increase his usefulness. I speak from observation and experience, having been a student and practitioner of hypnotism for some time and having several mail courses in my possession, as well as the works of the leading operators along that line.

I congratulate you heartily, Doctor, on your excellent production. FRED W. SOUTHWORTH, M. D.

Chicago School of Psychology

INCORPORATED

The First School of Suggestive Therapeutics Founded in America.

Established June, 1896.

HERBERT A. PARKYN, M. D., Medical Supt.

Scene showing in order Reading Room, Lecture Room, Clinic Operating Room, Dr. Parkyn's Private Office.

THE CHICAGO SCHOOL OF PSYCHOLOGY was established June 15, 1896, for the purpose of teaching Hypnotism, Suggestive Therapeutics and the treatment of disease by natural methods. Our course is very complete and by a new system of diagnosis the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully **FUNCTIONAL DISORDERS**, such as Chronic Constipation, Dyspepsia, Diarrhoea, Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.; **NERVOUS DISEASES**, including Locomotor Ataxia, Neuralgia, Nervous Prostration, St. Vitus' Dance, Epilepsy, Stammering and Asthma. **MENTAL TROUBLES**, such as Melancholia, Manias, Idiosyncrasies, Illusions, Delusions, Hallucinations, Stage Fright, Self-Consciousness, etc. **HABITS**, Liquor, Morphine, Cocaine, Tobacco, Muscular and Vicious; also Headaches, Rheumatism and Insomnia.

THE CLINIC. Nowhere in America has the student of Suggestive Therapeutics such clinical advantages as we offer here. We have no "horses" which are brought out for each class to practice on, but a clinic averaging twenty patients each day and conducted like that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at a diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 250 students and over 4,000 patients have been treated by Suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and our students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in their places, but our students come here to study Suggestion and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the first of every month.

DIPLOMA.

Every graduate is presented with our handsome steel engraved sheep skin Diploma, 14x18 inches in size. **READING ROOM.** We have a fine Reading Room for students, with tables filled with the latest magazines and books. Our students receive their mail and write their letters at the school; in fact make it their headquarters while in the city. **PRIVATE TREATMENT.** Patients desiring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A. Parkyn, and accommodations secured for them within a block of the school, which is situated on the finest Park Boulevard in America. **MAIL COURSE.** In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Suggestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at **THE CHICAGO SCHOOL OF PSYCHOLOGY**. The experiments of this institution have upset all the old theories; have turned the searchlight of science upon old mysteries and made them open books; have paved the way for intelligent uses of the science; dispelled prejudices and are miles in advance of the work done by any similar institution in the world. Our work is up to date and we are still progressing. One advantage of our system is that patients under treatment never associate the methods with Hypnotism. The methods employed are radically different to those in conventional use and so simple that a schoolboy can understand their philosophy. The mail course is printed on fine hand-made paper and consists of thirty parts for which over two hundred pages are required. The course is so complete in itself that no other books are required. A diploma is also awarded to those taking an examination by mail.

For terms of school course, private treatments, instruction by mail, etc., address,

Vril Cordial A pleasant, safe, elegant cell irritant that quickly fills the blood with giant cells. A remedy that by its peculiar roughness passing through the alimentary canal, toughens and thickens its lining like rough work as chopping wood toughens the palm of the hand. The cells of this lining membrane are made giant cells by the peculiar friction and this cell vigor extends throughout the body. If the stomach or alimentary canal is weak, cold or flabby, its cells are weak, the vitality is low, the entire system cold, prostrated, a condition present in all low diseases. This peculiar roughness excites, arouses, exhilarates, quickly strengthens, warms up every organ, and mind and body, producing prodigious vital force, strength, working power, physiological action, circulation, nutrition and enormous digestion. In a few hours often removes the black dry coating from the tongue of half unconscious cases and puts them on their feet in a few days. For 12 years I conducted a sanitarium with it, treating thousands with astonishing cures unequalled by science. In a few days it puts great vital force, strength into very low, weak, wasted, given up patients. Invalids usually gain 3 to 5 pounds a week and often get out of bed in 3 to 7 days. It has cured hundreds of bed fast consumptives in 2 to 3 months. Cures many cancers, abscesses, frightful ulcers, with incredible speed. It loosens and cures worst coughs quick while it doubles digestion and strength. Imparts courage, confidence, exhilarates body and mind, gives strong voice, clear skin, working power, prodigious strength to the heart, slows the pulse, cures wonderfully quick, heart, liver, stomach, nerves and women cases, prostration; gives such vigor to weak female organs, heart, nerves in feeble women that in a few days severe cases are almost well. Most women and children are made fat, strong and well in 2 to 6 weeks. It works wonders daily; patients delighted. It vastly increases the animal powers, sexual desire and vigor; its use unknown to physicians. Made at home, cost 10 cents a pound. Above sworn to by proprietor.

DERMAPURINE.

DERMAPURINE is a most valuable combination of disinfectants and gland stimulants for external application.

DERMAPURINE has been employed with great satisfaction in all forms of pruritus. In pruritus, ani and vulvæ, it has proven to be a most efficient remedy. In eczema (especially when there is itching,) it has given most satisfactory results. **Dermapurine** being a strong germicide, it is indicated in all parasitic infections of the skin, as in scabies of the animal and tinea tonsurans, pityriasis versicolor and tinea favosa, etc., of the vegetable parasites.

DERMAPURINE has been prescribed very extensively to remove pigmentary deposits, such as lentigo or freckles, chloasma, moth or liver spots, and has brought about most happy results.

In disorders of the excretions or excretory functions of the skin, such as seborrhea or dandruff, comedo or blackheads, hydrosis or excessive sweating (excessive sweating of the hands and feet, for instance) and seborrhea oleosa or greasy coating of the skin and scalp, it has proven to be a most active agent.

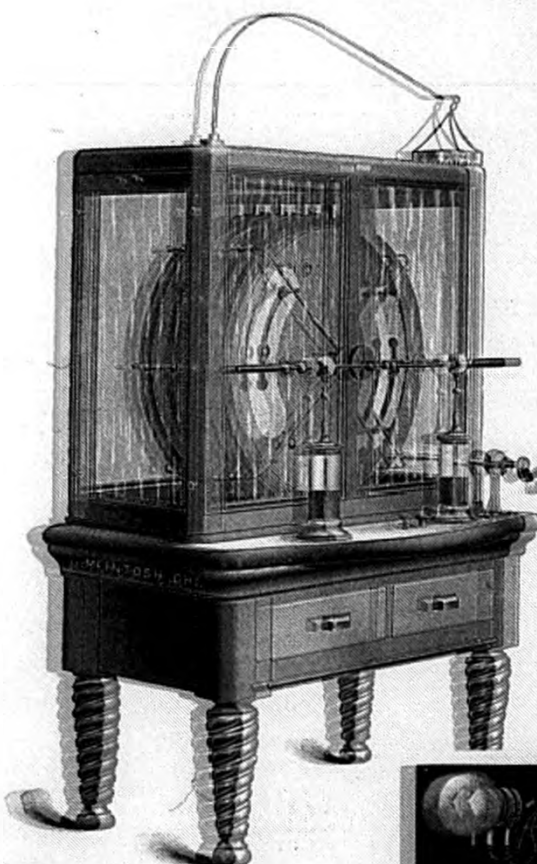

A number of cases have been reported in which **Dermapurine** has completely wiped out large crops of small warty growths in a very short time. We have reference to small growths that germinate out of the skin in large numbers, and are usually met with on the forehead and hands of children.

Physicians who have employed it to prevent syphilitic eruptions speak very highly of it, stating that it not only prevents further eruption to take place, but it also stimulates the glands and keeps up nutrition of the skin and keeps out syphilitic poison, so that ulceration will not occur.

Eight-oz. sample of **Dermapurine** and three cakes of soap sent to any physician on payment of express charges.

A Physician in Your Own Home

This cup is a thoroughly scientific discovery, and a careful perusal of the reading matter which we send on application, will, we feel certain, convince you that we are in a position to give you the greatest medical discovery of the age. The results we are obtaining in diseases of all kinds are truly remarkable. Although the discovery is a comparatively recent one, still it is working marvels in all kinds of acute and chronic disorders. All the chronic cases using it at present are improving rapidly and every day brings us reports of cases completely cured. It matters not from what disease you may be suffering, the cup will benefit you, for it directly increases the healing force in your body. If it is possible for you to get well you will get well by using this cup, and it will not interfere with any other treatment, but on the contrary will assist it. There is nothing dangerous about the cup and a child can use it.

DESCRIPTION OF THE CUP

Each cup contains sufficient magnetism to lift a weight of 40,000 lbs. a distance of one foot, and its influence can be perceptibly noticed at a distance of over 30 inches. This claim may seem preposterous to the average reader, nevertheless it is a demonstrable fact. This immense force is passed through a tasteless solution of Magnetic Metal Salts which are prepared by a secret process, and every draught of this fluid, when drunk from the cup, conveys magnetic life force directly into the body and circulation. Patients who use these cups *begin to pick up at once in vital force*, every bodily function is soon restored to its normal state and health returns, no matter from what disease the patient suffers.

Every family, every invalid and everyone wishing to retain his health should possess one of these cups.

SPECIAL MAIL COURSE IN Hypnotism & Suggestive Therapeutics

By HERBERT A. PARKYN, M. D.

The most complete, practical, and comprehensible Mail Course of any sort to-day. It is the result of observation from the personal treatment of over 4,000 cases. These cases have been treated since most of the text books were published.

No text books are required with this course. It is complete in itself. This is not a type-written course of twenty or thirty pages. It covers over 200 pages of printed matter; and each of the thirty parts is neatly bound.

HERBERT A. PARKYN, M. D.

PRINCIPAL AND FOUNDER OF

THE CHICAGO SCHOOL OF PSYCHOLOGY,

The first School of Suggestive Therapeutics established in America.

This Special Mail Course has been published in order to satisfy the demands of many who are unable to spend the time or money required to complete a regular school course in Suggestive Therapeutics and Hypnotism. Over One Year was spent in preparing it for the publisher; and the flattering testimonials which are pouring in from all sides from those who have received it show that the time was well spent.

This work is different in theory and practice from anything taught elsewhere or published in books.

Everything is made so clear that a child could apply its teachings.

It tells what to do and how to do it; what to say and how to say it.

The course is printed on fine, hand-made paper, and consists of thirty parts, all of which are shipped at one time upon receipt of \$5.00.

WHAT THEY ARE SAYING!

Norman, Okla., Jan. 13, 1900.

Dear Doctor: I received your mail course some time back, and to say I am perfectly delighted with it would be putting it too mildly.

I am surprised to know what a great help it will be to me. I have already used suggestion to much advantage.

THOS. W. EWING.

Centerville, Ill., Jan. 19, 1900.

Dear Sir: Your mail course in suggestion received and read with interest. While I have been a close student of suggestion for the past twelve or fifteen years, having followed carefully the theories of Bernheim, Moll Hudson and others, will say that I have never found so much practical information in any book or professional course as I have received by reading your thirty lessons.

J. S. TOWNSLEY.

Detroit, Mich., Jan. 10, 1900.

Dear Sir: I pride myself on having read about everything extant on hypnotism, mesmerism and kindred subjects. I have also made a point of studying the courses of lessons sent out by "Professors" of hypnotism at prices ranging from \$5 to \$100, but for practical utility I have found nothing which in any way compares with your special mail course in suggestion. All of the "Professors" give little or nothing in their courses which is of any value to the practice of Suggestive Therapeutics.

In your course I notice you have carefully avoided connecting occultism or mysticism with suggestion. Your object seems to have been to teach a practical lesson on every page and there can be no question

but that your purpose has been eminently accomplished. No person who takes an interest in Suggestive Therapeutics can possibly be up to date who has not digested your special mail course in suggestion. Yours sincerely,

J. LAWSON HALL.

Goldthwaite, Texas, Jan. 17, 1900.

Dear Doctor: I have patiently studied your mail course together with other mail courses in magnetism and hypnotism published by the several "Professors," and have read carefully the following books: Hudson's Law of Psychic Phenomena, Tuckey's Suggestive Therapeutics, Bernheim, Works on Christian Science, etc., but will say right here that I consider your mail course is the most complete of any that I know of.

I consider after careful perusal of most of the leading courses that the principles laid down in your special mail course are superior to any others.

E. M. WILSON, D. D. S.

Tacoma, Jan. 15, 1900.

Dear Doctor: I most heartily and voluntarily commend your mail course on suggestion as the only rational and practical method of suggestion and the only one which should be practiced by reputable physicians—or in fact anyone—who wishes to retain his self-respect and increase his usefulness. I speak from observation and experience, having been a student and practitioner of hypnotism for some time and having several mail courses in my possession, as well as the works of the leading operators along that line.

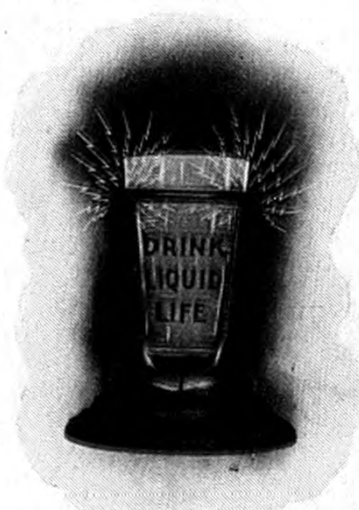

I congratulate you heartily, Doctor, on your excellent production. FRED W. SOUTHWORTH, M. D.

Our course is very complete and by a new system of diagnosis the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully **FUNCTIONAL DISORDERS**, such as Chronic Constipation, Dyspepsia, Diarrhoea, Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.; **NERVOUS DISEASES**, including Locomotor Ataxia, Neuralgia, Nervous Prostration, St. Vitus' Dance, Epilepsy, Stammering and Asthma. **MENTAL TROUBLES**, such as Melancholia, Mania, Idiosyncrasies, Illusions, Delusions, Hallucinations, Stage Fright, Self-Consciousness, etc. **HABITS**, Liquor, Morphine, Cocaine, Tobacco, Muscular and Violent; also Headaches, Rheumatism and Insomnia.

THE CLINIC. Nowhere in America has the student of Suggestive Therapeutics such clinical advantages as we offer here. We have no "horses" which are brought out for each class to practice on, but a clinic averaging twenty patients each day and conducted like that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at a diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 250 students and over 4,000 patients have been treated by Suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and our students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in their places, but our students come here to study Suggestion and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the first of every month.

DIPLOMA.

Every graduate is presented with our handsome steel engraved sheep skin Diploma, 14x18 inches in size. **READING ROOM.** We have a fine Reading Room for students, with tables filled with the latest magazines and books. Our students receive their mail and write their letters at the school; in fact make it their headquarters while in the city. **PRIVATE TREATMENT.** Patients desiring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A. Parkyn, and accommodations secured for them within a block of the school, which is situated on the finest Park Boulevard in America. **MAIL COURSE.** In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Suggestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at THE CHICAGO SCHOOL OF PSYCHOLOGY. The experiments of this institution have upset all the old theories; have turned the searchlight of science upon old mysteries and made them open books; have paved the way for intelligent uses of the sciences; dispelled prejudices and are miles in advance of the work done by any similar institution in the world. Our work is up to date and we are still progressing. One advantage of our system is that patients under treatment never associate the methods with Hypnotism. The methods employed are radically different to those in conventional use and so simple that a schoolboy can understand their philosophy. The mail course is printed on fine hand-made paper and consists of thirty parts for which over two hundred pages are required. The course is so complete in itself that no other books are required. A diploma is also awarded to those taking an examination by mail.

The Dr. C. O. Sahler Sanitarium,
(Incorporated)
KINGSTON, NEW YORK.

This is the first sanitarium established in the United States for the treatment of disease by suggestion. The doctor is one of the pioneers of psychological treatment in this country and has met with such success that recently he has enlarged his sanitarium to double the original capacity to accommodate the increased demand for those who wish to come under his personal treatment from all parts of the United States and Canada. The following ailments are now and have been successfully treated: Nervous diseases and mental delusions, all kinds of headaches, pains and rheumatic affections, hay fever, asthma, hatred, paresis, epilepsy, hysteria, melancholia, monomania, irritableness, insomnia, somnambulism, St. Vitus dance, loss of voice, deafness, Writers' cramp, self-consciousness, bashfulness, urinary and female diseases, constipation and rectal diseases. Besides these special attention is given to functional sexual disorders, alcoholic, morphine and cocaine habits. The doctor, now, for the first time, can assure the public that he has a special method which will positively cure

any case of alcoholism, morphia and cocaine habits. In connection with the sanitarium there is a school devoted to the instruction of psychology.

DERMAPURINE.

DERMAPURINE is a most valuable combination of disinfectants and gland stimulants for external application.

DERMAPURINE has been employed with great satisfaction in all forms of pruritus. In pruritus, ani and vulvæ, it has proven to be a most efficient remedy. In eczema (especially when there is itching,) it has given most satisfactory results. **Dermapurine** being a strong germicide, it is indicated in all parasitic infections of the skin, as in scabies of the animal and tinea tonsurans, pityriasis versicolor and tinea favosa, etc., of the vegetable parasites.

DERMAPURINE has been prescribed very extensively to remove pigmentary deposits, such as lentigo or freckles, chloasma, moth or liver spots, and has brought about most happy results.

In disorders of the excretions or excretory functions of the skin, such as seborrhea or dandruff, comedo or blackheads, hydrosis or excessive sweating (excessive sweating of the hands and feet, for instance) and seborrhea oleosa or greasy coating of the skin and scalp, it has proven to be a most active agent.

A number of cases have been reported in which **Dermapurine** has completely wiped out large crops of small warty growths in a very short time. We have reference to small growths that germinate out of the skin in large numbers, and are usually met with on the forehead and hands of children.

Physicians who have employed it to prevent syphilitic eruptions speak very highly of it, stating that it not only prevents further eruption to take place, but it also stimulates the glands and keeps up nutrition of the skin and keeps out syphilitic poison, so that ulceration will not occur.

Eight-oz. sample of **Dermapurine** and three cakes of soap sent to any physician on payment of express charges.

A Physician in Your Own Home

This cup is a thoroughly scientific discovery, and a careful perusal of the reading matter which we send on application, will, we feel certain, convince you that we are in a position to give you the greatest medical discovery of the age. The results we are obtaining in diseases of all kinds are truly remarkable. Although the discovery is a comparatively recent one, still it is working marvels in all kinds of acute and chronic disorders. All the chronic cases using it at present are improving rapidly and every day brings us reports of cases completely cured. It matters not from what disease you may be suffering, the cup will benefit you, for it directly increases the healing force in your body. If it is possible for you to get well you will get well by using this cup, and it will not interfere with any other treatment, but on the contrary will assist it. There is nothing dangerous about the cup and a child can use it.

DESCRIPTION OF THE CUP

Each cup contains sufficient magnetism to lift a weight of 40,000 lbs. a distance of one foot, and its influence can be perceptibly noticed at a distance of over 30 inches. This claim may seem preposterous to the average reader, nevertheless it is a demonstrable fact. This immense force is passed through a tasteless solution of Magnetic Metal Salts which are prepared by a secret process, and every draught of this fluid, when drunk from the cup, conveys magnetic life force directly into the body and circulation. Patients who use these cups begin to pick up at once in vital force, every bodily function is soon restored to its normal state and health returns, no matter from what disease the patient suffers.

Every family, every invalid and everyone wishing to retain his health should possess one of these cups.

ABLEST CURE OF THE TIMES.

Formula and Instructions How to Make and use it for \$2.00. Money refunded if not Satisfied With Use.

Vril Cordial a pleasant, safe, elegant cell irritant that quickly fills the blood with giant cells. A remedy that by its peculiar roughness passing through the alimentary canal, toughens and thickens its lining like rough work as chopping wood toughens the palm of the hand. The cells of this lining membrane are made giant cells by the peculiar friction and this cell vigor extends throughout the body. If the stomach or alimentary canal is weak, cold or flabby, its cells are weak, the vitality is low, the entire system cold, prostrated, a condition present in all low diseases. This peculiar roughness excites, arouses, exhilarates, quickly strengthens, warms up every organ, and mind and body, producing prodigious vital force, strength, working power, physiological action, circulation, nutritive and enormous digestion. In a few hours often removes the black dry coating from the tongue of half unconscious cases and puts them on their feet in a few days. For 12 years I conducted a sanitarium with it, treating thousands with astonishing cures unequalled by science. In a few days it puts great vital force, strength into very low, weak, wasted, given up patients. Invalids usually gain 3 to 5 pounds a week and often get out of bed in 3 to 7 days. It has cured hundreds of bed fast consumptives in 2 to 3 months. Cures many cancers, abscesses, frightful ulcers, with incredible speed. It loosens and cures worst coughs quick while it doubles digestion and strength. Imparts courage, confidence, exhilarates body and mind, gives strong voice, clear skin, working power, prodigious strength to the heart, slows the pulse, cures wonderfully quick, heart, liver, stomach, nerves and women cases, prostration; gives such vigor to weak female organs, heart, nerves in feeble women that in a few days severe cases are almost well. Most women and children are made fat, strong and well in 2 to 6 weeks. It works wonders daily; patients delighted. It vastly increases the animal powers, sexual desire and vigor; its use unknown to physicians. Made at home, cost 10 cents a pound. Above sworn to by proprietor.

We believe that any husband and wife who carefully read this volume together, and apply the method suggested by Dr. Taber, will find themselves able to choose for themselves the sex of their future children instead of leaving it to chance. SPECIAL MAIL COURSE IN Hypnotism & Suggestive Therapeutics

By HERBERT A. PARKYN, M. D.

HERBERT A. PARKYN, M. D.

PRINCIPAL AND FOUNDER OF

THE CHICAGO SCHOOL OF PSYCHOLOGY,

The first School of Suggestive Therapeutics established in America.

The most complete, practical and comprehensible Mail Course of any sort to-day. It is the result of observation from the personal treatment of over 5,000 cases. These cases have been treated since most of the text books were published.

No text books are required with this course. It is complete in itself. This is not a type-written course of twenty or thirty pages. It covers nearly 400 pages of printed matter; and the thirty-eight parts are neatly bound in cloth and gold.

This Special Mail Course has been published in order to satisfy the demands of many who are school course in Suggestive Therapeutics and Hypnotism. Over One Year was spent in preparing it for the publisher; and the flattering testimonials which are pouring in from all sides from those who have received it show that the time was well spent.

This work is different in theory and practice from anything taught elsewhere or published in books.

Everything is made so clear that a child could apply its teachings.

It tells what to do and how to do it; what to say and how to say it.

The course is printed on fine, hand-made paper, and consists of THIRTY-EIGHT parts neatly bound in cloth and gilt, all of which are shipped at one time upon receipt of \$10.00.

WHAT THEY ARE SAYING!

Norman, Okla., Jan. 13, 1900.

Dear Doctor: I received your mail course sometime back, and to say I am perfectly delighted with it would be putting it too mildly.

I am surprised to know what a great help it will be to me. I have already used suggestion to much advantage.

THOS. W. EWING.

Centerville, Ill., Jan. 12, 1900.

Dear Sir: Your mail course in suggestion received and read with interest. While I have been a close student of suggestion for the past twelve or fifteen years, having followed carefully the theories of Bernheim, Moll Hudson and others, will say that I have never found so much practical information in any book or professional course as I have received by reading your thirty lessons.

J. S. TOWNSLEY.

Detroit, Mich., Jan. 10, 1900.

Dear Sir: I pride myself on having read about everything extant on hypnotism, mesmerism and kindred subjects. I have also made a point of studying the courses of lessons sent out by "Professors" of hypnotism at prices ranging from \$5 to \$100, but for practical utility I have found nothing which in any way compares with your special mail course in suggestion. All of the "Professors" give little or nothing in their courses which is of any value to the practice of Suggestive Therapeutics.

In your course I notice you have carefully avoided connecting occultism or mysticism with suggestion. Your object seems to have been to teach a practical lesson on every page and there can be no question

but that your purpose has been eminently accomplished. No person who takes an interest in Suggestive Therapeutics can possibly be up to date who has not digested your special mail course in suggestion. Yours sincerely,

J. LAWSON HALL.

Goldthwaite, Texas, Jan. 17, 1900.

Dear Doctor: I have patiently studied your mail course together with other mail courses in magnetism and hypnotism published by the several "Professors," and have read carefully the following books: Hudson's Law of Psychic Phenomena, Tuckey's Suggestive Therapeutics, Bernheim's Works on Christian Science, etc., but will say right here that I consider your mail course is the most complete of any that I know of.

I consider after careful perusal of most of the leading courses that the principles laid down in your special mail course are superior to any others.

E. M. WILSON, D. D. S.

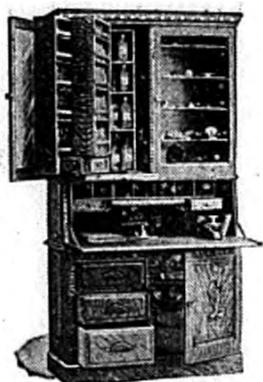

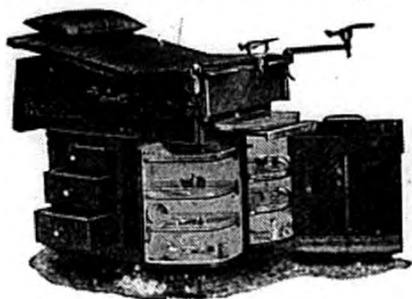

Tacoma, Jan. 15, 1900.

Dear Doctor: I most heartily and voluntarily commend your mail course on suggestion as the only rational and practical method of suggestion and the only one which should be practiced by reputable physicians—or in fact anyone—who wishes to retain his self-respect and increase his usefulness. I speak from observation and experience, having been a student and practitioner of hypnotism for some time and having several mail courses in my possession, as well as the works of the leading operators along that line.

I congratulate you heartily, Doctor, on your excellent production. PUGH W. SCOTT, M. D.

HAVE YOU SEEN IT?

If you want the best you will take no other. This style, No. 34, our latest production, surpasses in beauty, convenience, and practical utility, anything of the kind ever seen.

The unique design, compact and harmonious, adjustable stirrups and leg crutches, glass trays in the revolving cabinets, detachable leg rests, the simple, convenient and ingenious mechanism, rendering it noiseless in its movements and easy of manipulation, and its immaculate finish, are the secrets of its popularity. It is used in the Post Graduate Schools of New York and Chicago—a distinction no other table enjoys.

Chicago School of Psychology

INCORPORATED

The First School of Suggestive Therapeutics Founded in America.

Established June, 1896

HERBERT A. PARKYN M. D., Medical Supt.

Students in attendance at the Chicago School of Psychology.

THE CHICAGO SCHOOL OF PSYCHOLOGY was established June 15, 1896, for the purpose of teaching Hypnotism, Suggestive Therapeutics and the treatment of disease by natural methods. Our course is very complete and by a new system of diagnosis the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully **FUNCTIONAL DISORDERS**, such as Chronic Constipation, Dyspepsia, Diarrhea, Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.; **NERVOUS DISEASES**, including Locomotor Ataxia, Neuralgia, Nervous Prostration, St. Vitus' Dance, Epilepsy, Stammering and Asthma. **MENTAL TROUBLES**, such as Melancholia, Mania, Idiosyncrasies, Illusions, Delusions, Hallucinations, Stage Fright, Self-Consciousness, etc. **HABITS**, Liquor, Morphine, Cocaine, Tobacco, Muscular and Venious; also Headaches, Rheumatism and Insomnia.

THE CLINIC. Nowhere in America has the student of Suggestive Therapeutics such clinical advantages as we offer here. We have no "horses" which are brought out for each class to practice on, but a clinic averaging twenty patients each day and conducted like that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at a diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 250 students and over 4,000 patients have been treated by Suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and our students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in their places, but our students come here to study Suggestion and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the first of every month.

DIPLOMA.

Every graduate is presented with our handsome steel engraved sheep skin Diploma, 14x18 inches in size. **READING ROOM.** We have a fine Reading Room for students, with tables filled with the latest magazines and books. Our students receive their mail and write their letters at the school; in fact make it their headquarters while in the city. **PRIVATE TREATMENT.** Patients desiring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A. Parkyn, and accommodations secured for them within a block of the school, which is situated on the finest Park Boulevard in America. **MAIL COURSE.** In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Suggestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at **THE CHICAGO SCHOOL OF PSYCHOLOGY**. The experiments of this institution have upset all the old theories; have turned the searchlight of science upon old mysteries and made them open books; have paved the way for intelligent uses of the science; dispelled prejudices and are miles in advance of the work done by any similar institution in the world. Our work is up to date and we are still progressing. One advantage of our system is that patients under treatment never associate the methods with Hypnotism. The methods employed are radically different to those in conventional use and so simple that a schoolboy can understand their philosophy. The mail course is printed on fine hand-made paper and consists of thirty parts for which over two hundred pages are required. The course is so complete in itself that no other books are required. A diploma is also awarded to those taking an examination by mail.

An Antidote for Opium Discovered.

(From Chicago Railway Surgeon.)

Dr. Shep. A. Rogers, Prof. Anatomy and Clinical Surgery, Memphis Hospital Medical College, assisted by Doctors Watlington and Brooks, the latter late physician in charge of Hot Springs, Ark., Keeley Institute, makes a test of Tri-Elixiria Opium Antidote.

Tri-Elixiria has been widely and favorably mentioned by the leading medical journals of the world, and is being successfully used by a large number of physicians in their practice. It is prepared under an open formula which enables physicians to prescribe it intelligently.

FORMULA.

	One drachm contains
Rhubarb (F. E.).....	4 Minims
Prickly Ash (F. E.).....	4 "
Colombo (F. E.).....	5 "
Hops (Elixir).....	9 "

Mandragora Off. (Extract) Q. S.	

Dose—One (1) teaspoonful in fourth (¼) of a glass of water eight (8) times a day for opium and its preparations, as morphine, laudanum, etc., and for other drug addictions.

PATIENT HAD TAKEN KEELEY.

The test patient had taken the Keeley and Dr. Stephen's treatments without any permanent relief, in fact, he claims that after he was "off" of these treatments he suffered so with nervousness and consequent restlessness and morphine pain, that there was nothing for him to do but to fly to the drug for relief. His case was, therefore, deemed a suitable test, and when his treatment was completed the following report was made:

THE PHYSICIANS MAKE A REPORT.

Beginning treatment in this case on November 10, 1895. The whisky cure was given first. His physical condition was considered average, taking into consideration surrounding circumstances.

From November 10 to November 14 he drank whisky continually, until, on the morning of the 15th, he would not drink any more, being very much disgusted with it. Considering him cured of this habit we decided to put him under the treatment for the morphine habit.

SUFFERED NOTHING FROM NERVOUSNESS.

Notwithstanding he continued hard drinking for several days and nights, he suffered absolutely nothing from nervousness, neither did his circulation receive that shock that is always consequent upon a sudden let-up on whisky after a prolonged drunk.

CONSIDERED MOST REMARKABLE.

This was considered by us as most remarkable, reasoning from analogy. This extreme nervousness in connection with these serious cardiac symptoms are pathognomonic symptoms following a withdrawal of stimulants by all other whisky cures. Indeed, these symptoms are of so common occurrence and so distressing that in most cases they are compelled to call in the aid of a little more whisky, as it is considered the best and only sedative in such cases. This, happily, is not the case in the treatment for dipsomania with Tri-Elixiria.

NEVER SUFFERED A PAIN.

After having been put on the morphine treatment his general system underwent a complete change. His appetite improved, he slept better the first night and continuously night after night thereafter until he now enjoys perfect rest. The patient never suffered a pain while under the treatment for the morphine habit. Contrary to the general condition of a morphine habitue on treatment, this man's recovery was progressive and rapid from the beginning of his treatment. His eyes and skin lost that yellow, parchment color, his bowels became regular, his circulation improved, he felt every day the increasing symptoms of returning manhood. He never suffered a minute with that indescribable, half-insane feeling, "melaise," with which all opium habitues are familiar. His general condition we now consider first-class.

HAS BEEN WITHOUT DRUGS FOR SEVENTY-TWO HOURS.

He has now been without drug stimulants for over seventy-two hours and has no desire for the drug and shows no signs of debility. This cure was accomplished without the aid of emetics or purgatives or unpleasant treatment; in fact, we consider it a rational, humane and scientific treatment.

SHEP. A. ROGERS, M. D.
OBE F. WATLINGTON, M. D.
J. B. BROOKS, M. D.

COMPETENT JUDGES.

The physicians signing the above report are competent judges. They have seen a great number of patients under treatment at other sanitariums and pronounce the cure effected in Mr. B.'s case as one which it would have been hard for them to have believed could be accomplished, but having entire control of the patient, remedies and diet, they experienced little trouble in accomplishing this result.

Tri-Elixiria is manufactured by the Tri-Elixiria Remedy Co., manufacturing chemists, Memphis, Tenn., and judging from the above and a recent report made by the Imatological Bureau, Westfield, N. J., it is a remedy to favor.

The Dr. C. O. Sahler Sanitarium,
(Incorporated)
KINGSTON, NEW YORK.

This is the first sanitarium established in the United States for the treatment of disease by suggestion. The doctor is one of the pioneers of psychological treatment in this country and has met with such success that recently he has enlarged his sanitarium to double the original capacity to accommodate the increased demand for those who wish to come under his personal treatment from all parts of the United States and Canada. The following ailments are now and have been successfully treated: Nervous diseases and mental delusions, all kinds of headaches, pains and rheumatic affections, hay fever, asthma, hatred, paresis, epilepsy, hysteria, melancholia, monomania, irritableness, insomnia, somnambulism, St. Vitus dance, loss of voice, deafness, Writers' cramp, self-consciousness, bashfulness, urinary and female diseases, constipation and rectal diseases. Besides these special attention is given to functional sexual disorders, alcoholic, morphine and cocaine habits. The doctor, now, for the first time, can assure the public that he has a special method which will positively cure

any case of alcoholism, morphia and cocaine habits. In connection with the sanitarium there is a school devoted to the instruction of psychology.

DERMAPURINE.

DERMAPURINE is a most valuable combination of disinfectants and gland stimulants for external application.

DERMAPURINE has been employed with great satisfaction in all forms of pruritus. In pruritus, ani and vulvæ, it has proven to be a most efficient remedy. In eczema (especially when there is itching,) it has given most satisfactory results. **Dermapurine** being a strong germicide, it is indicated in all parasitic infections of the skin, as in scabies of the animal and tinea tonsurans, pityriasis versicolor and tinea favosa, etc., of the vegetable parasites.

DERMAPURINE has been prescribed very extensively to remove pigmentary deposits, such as lentigo or freckles, chloasma, moth or liver spots, and has brought about most happy results.

In disorders of the excretions or excretory functions of the skin, such as seborrhea or dandruff, comedo or blackheads, hydrosis or excessive sweating (excessive sweating of the hands and feet, for instance) and seborrhea oleosa or greasy coating of the skin and scalp, it has proven to be a most active agent.

A number of cases have been reported in which **Dermapurine** has completely wiped out large crops of small warty growths in a very short time. We have reference to small growths that germinate out of the skin in large numbers, and are usually met with on the forehead and hands of children.

Physicians who have employed it to prevent syphilitic eruptions speak very highly of it, stating that it not only prevents further eruption to take place, but it also stimulates the glands and keeps up nutrition of the skin and keeps out syphilitic poison, so that ulceration will not occur.

Eight-oz. sample of **Dermapurine** and three cakes of soap sent to any physician on payment of express charges.

A Physician in Your Own Home

This cup is a thoroughly scientific discovery, and a careful perusal of the reading matter which we send on application, will, we feel certain, convince you that we are in a position to give you the greatest medical discovery of the age. The results we are obtaining in diseases of all kinds are truly remarkable. Although the discovery is a comparatively recent one, still it is working marvels in all kinds of acute and chronic disorders. All the chronic cases using it at present are improving rapidly and every day brings us reports of cases completely cured. It matters not from what disease you may be suffering, the cup will benefit you, for it directly increases the healing force in your body. If it is possible for you to get well you will get well by using this cup, and it will not interfere with any other treatment, but on the contrary will assist it. There is nothing dangerous about the cup and a child can use it.

DESCRIPTION OF THE CUP

Each cup contains sufficient magnetism to lift a weight of 40,000 lbs. a distance of one foot, and its influence can be perceptibly noticed at a distance of over 30 inches. This claim may seem preposterous to the average reader, nevertheless it is a demonstrable fact. This immense force is passed through a tasteless solution of Magnetic Metal Salts which are prepared by a secret process, and every draught of this fluid, when drunk from the cup, conveys magnetic life force directly into the body and circulation. Patients who use these cups begin to pick up at once in vital force, every bodily function is soon restored to its normal state and health returns, no matter from what disease the patient suffers.

Every family, every invalid and everyone wishing to retain his health should possess one of these cups.

We believe that any husband and wife who carefully read this volume together, and apply the method suggested by Dr. Taber, will find themselves able to choose for themselves the sex of their future children instead of leaving it to chance.

SPECIAL MAIL COURSE

—IN—

Hypnotism and Suggestive Therapeutics

By HERBERT A. PARKYN, M. D.

The most complete practical and comprehensible Mail Course of any sort to-day. It is the result of observation from the personal treatment of over 5,000 cases. These cases have been treated since most of the text books were published.

No text books are required with this course. It is complete in itself. This is not a type-written course of twenty or thirty pages. It covers nearly 400 pages of printed matter; and the thirty-eight parts are neatly bound in cloth and gold.

HERBERT A. PARKYN, M. D.

PRINCIPAL AND FOUNDER OF

THE CHICAGO SCHOOL OF PSYCHOLOGY,

The first School of Suggestive Therapeutics established in America.

This Special Mail Course

has been published in order to satisfy the demands of many who are unable to spend the time or money required to complete a regular school course in Suggestive Therapeutics and Hypnotism. Over One Year was spent in preparing it for the publisher; and the flattering testimonials which are pouring in from all sides from those who have received it show that the time was well spent.

This work is different in theory and practice from anything taught elsewhere or published in books. Everything is made so clear that a child could apply its teachings.

It tells what to do and how to do it: what to say and how to say it.

The course is printed on fine, hand-made paper, and consists of THIRTY EIGHT parts neatly bound in cloth and gilt, all of which are shipped at one time upon receipt of \$10.00

WHAT THEY ARE SAYING!

Norman, Okla., Jan. 13, 1900.
Dear Doctor: I received your mail course sometime back, and to say I am perfectly delighted with it would be putting it too mildly.

I am surprised to know what a great help it will be to me. I have already used suggestion to much advantage.
THOS. W. EWING.

Centerville, Ill., Jan. 19, 1900.
Dear Sir: Your mail course in suggestion received and read with interest. While I have been a close student of suggestion for the past twelve or fifteen years, having followed carefully the theories of Bernheim, Moll Hudson and others, will say that I have never found so much practical information in any book or professional course as I have received by reading your thirty lessons.
J. S. TOWNSELY.

Detroit, Mich., Jan. 10, 1900.
Dear Sir: I pride myself on having read about everything extant on hypnotism, mesmerism and kindred subjects. I have also made a point of studying the courses of lessons sent out by "Professors" of hypnotism at prices ranging from \$5 to \$100, but for practical utility I have found nothing which in any way compares with your special mail course in suggestion. All of the "Professors" give little or nothing in their courses which is of any value to the practice of Suggestive Therapeutics.

In your course I notice you have carefully avoided connecting occultism or mysticism with suggestion. Your object seems to have been to teach a practical lesson on every page and there can be no question

but that your purpose has been eminently accomplished. No person who takes an interest in Suggestive Therapeutics can possibly be up to date who has not digested your special mail course in suggestion.
Yours sincerely,
J. LAWSON HALL.

Goldthwaite, Texas, Jan. 15, 1900.
Dear Doctor: I have patiently studied your mail course together with other mail courses in magnetism and hypnotism published by the several "Professors," and have read carefully the following books: Hudson's Law of Psychic Phenomena, Tuckey's Suggestive Therapeutics, Bernheim, Works on Christian Science, etc., but will say right here that I consider your mail course is the most complete of any that I know of.

I consider after careful perusal of most of the leading courses that the principles laid down in your special mail course are superior to any others.
E. M. WILSON, D. D. S.

Tacoma, Jan. 15, 1900.
Dear Doctor: I most heartily and voluntarily commend your mail course on suggestion as the only rational and practical method of suggestion and the only one which should be practiced by reputable physicians—or in fact anyone—who wishes to retain his self-respect and increase his usefulness. I speak from observation and experience, having been a student and practitioner of hypnotism for some time and having several mail courses in my possession, as well as the works of the leading operators along that line.

I congratulate you heartily, Doctor, on your excellent production. FRED W. SOUTHWORTH, M. D.

Chicago School of Psychology

INCORPORATED

The First School of Suggestive Therapeutics Founded in America.

Established June, 1896

HERBERT A. PARKYN M. D., Medical Supt.

Students in attendance at the Chicago School of Psychology.

THE CHICAGO SCHOOL OF PSYCHOLOGY was established June 15, 1896, for the purpose of teaching Hypnotism, Suggestive Therapeutics and the treatment of disease by natural methods. Our course is very complete and by a new system of diagnosis the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully **FUNCTIONAL DISORDERS**, such as Chronic Constipation, Dyspepsia, Diarrhoea, Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.; **NERVOUS DISEASES**, including Locomotor Ataxia, Neuralgia, Nervous Prostration, St. Vitus' Dance, Epilepsy, Stammering and Asthma. **MENTAL TROUBLES**, such as Melancholia, Mania, Idiosyncrasies, Illusions, Delusions, Hallucinations, Stage Fright, Self-Consciousness, etc. **HABITS**, Liquor, Morphine, Cocaine, Tobacco, Muscular and Vicious; also Headaches, Rheumatism and Insomnia.

THE CLINIC. Nowhere in America has the student of Suggestive Therapeutics such clinical advantages as we offer here. We have no "horses" which are brought out for each class to practice on, but a clinic averaging twenty patients each day and conducted like that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at a diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 250 students and over 4,000 patients have been treated by Suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and our students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in their place, but our students come here to study Suggestion and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the first of every month.

DIPLOMA.

Every graduate is presented with our handsome steel engraved sheep skin Diploma, 14x18 inches in size. **READING ROOM.** We have a fine Reading Room for students, with tables filled with the latest magazines and books. Our students receive their mail and write their letters at the school; in fact make it their headquarters while in the city. **PRIVATE TREATMENT.** Patients desiring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A. Parkyn, and accommodations secured for them within a block of the school, which is situated on the finest Park Boulevard in America. **MAIL COURSE.** In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Suggestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at **THE CHICAGO SCHOOL OF PSYCHOLOGY**. The experiments of this institution have upset all the old theories; have turned the searchlight of science upon old mysteries and made them open books; have paved the way for intelligent uses of the science; dispelled prejudices and are miles in advance of the work done by any similar institution in the world. Our work is up to date and we are still progressing. One advantage of our system is that patients under treatment never associate the methods with Hypnotism. The methods employed are radically different to those in conventional use and so simple that a schoolboy can understand their philosophy. The mail course is printed on fine hand-made paper and consists of thirty parts for which over two hundred pages are required. The course is so complete in itself that no other books are required. A diploma is also awarded to those taking an examination by mail.

This apparatus introduces a new principle in bathing, whereby the promotion and maintenance of a normal action of the skin is secured, and in the requisite cutaneous secretion, the evidence of robust health is furnished by a clear fresh complexion.

This system constitutes a perfect self purifying bath, all spent heat and noxious gases from the pores being promptly removed, and replaced by fresh heat; carrying its full quota of oxygen. The body subjected to a dry steam or vapor is made to perspire copiously, thus causing the opening and cleansing of the multitude of pores on the surface of the skin. The head being outside and separated from the super-heated air (Hydrogen) all danger of inhaling deleterious gases is obviated, inasmuch as while the body in the bath in being supplied with Hydrogen. The lungs receive their full supply of Oxygen, thus avoiding taking cold.

A FEW ADDITIONAL POINTS.

For *Training (Physical Culture)* it has no equal.

For *Bicycle Riders*, after a long ride in the heat and dust what can be more beneficial?

For *stout people* it will cure *obesity* without weakening.

ABLEST CURE OF THE TIMES.

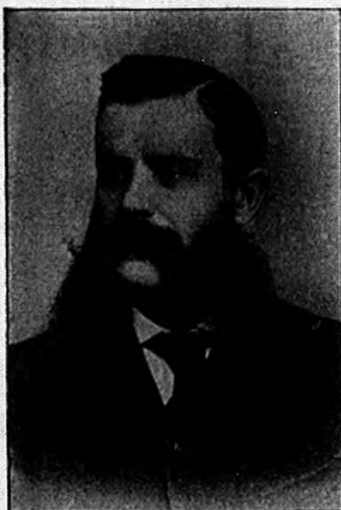

Formula and Instructions How to Make and use it for \$2.00. Money refunded if not Satisfied With Use.

Vril Cordial a pleasant, safe, elegant cell irritant that quickly fills the blood with giant cells. A remedy that by its peculiar roughness passing through the alimentary canal, toughens and thickens its lining like rough work as chopping wood toughens the palm of the hand. The cells of this lining membrane are made giant cells by the peculiar friction and this cell vigor extends throughout the body. If the stomach or alimentary canal is weak, cold or flabby, its cells are weak, the vitality is low, the entire system cold, prostrated, a condition present in all low diseases. This peculiar roughness excites, arouses, exhilarates, quickly strengthens, warms up every organ, and mind and body, producing prodigious vital force, strength, working power, physiological action, circulation, nutrition and enormous digestion. In a few hours often removes the black dry coating from the tongue of half unconscious cases and puts them on their feet in a few days. For 12 years I conducted a sanitarium with it, treating thousands with astonishing cures unequalled by science. In a few days it puts great vital force strength into very low, weak, wasted, given up patients. Invalids usually gain 3 to 5 pounds a week and often get out of bed in 3 to 7 days. It has cured hundreds of bed fast consumptives in 2 to 3 months. Cures many cancers, abscesses, frightful ulcers, with incredible speed. It loosens and cures worst coughs quick while it doubles digestion and strength. Imparts courage, confidence, exhilarates body and mind, gives strong voice, clear skin, working power, prodigious strength to the heart, slows the pulse, cures wonderfully quick, heart, liver, stomach, nerves and women cases. Prostration; gives such vigor to weak female-organs heart, nerves in feeble women that in a few days severe cases are almost well. Most women and children are made fat, strong and well in 2 to 6 weeks. It works wonders daily; patients delighted. It vastly increases the animal powers, sexual desire and vigor; its use unknown to physicians. Made at home, cost 10 cents a pound. Above sworn to by proprietor.

KINGSTON, NEW YORK.

This is the first sanitarium established in the United States for the treatment of disease by suggestion. The doctor is one of the pioneers of psychological treatment in this country and has met with such success that recently he has enlarged his sanitarium to double the original capacity to accommodate the increased demand for those who wish to come under his personal treatment from all parts of the United States and Canada. The following ailments are now and have been successfully treated: Nervous diseases and mental delusions, all kinds of headaches, pains and rheumatic affections, hay fever, asthma, hatred, paresis, epilepsy, hysteria, melancholia, monomania, irritableness, insomnia, somnambulism, St. Vitus dance, loss of voice, deafness, Writers' cramp, self-consciousness, bashfulness, urinary and female diseases, constipation and rectal diseases. Besides these special attention is given to functional sexual disorders, alcoholic, morphine and cocaine habits. The doctor, now, for the first time, can assure the public that he has a special method which will positively cure

any case of alcoholism, morphia and cocaine habits. In connection with the sanitarium there is a school devoted to the instruction of psychology.

DERMAPURINE.

DERMAPURINE is a most valuable combination of disinfectants and gland stimulants for external application.

DERMAPURINE has been employed with great satisfaction in all forms of pruritus. In pruritus, ani and vulvæ, it has proven to be a most efficient remedy. In eczema (especially when there is itching,) it has given most satisfactory results. **Dermapurine** being a strong germicide, it is indicated in all parasitic infections of the skin, as in scabies of the animal and tinea tonsurans, pityriasis versicolor and tinea favosa, etc., of the vegetable parasites.

DERMAPURINE has been prescribed very extensively to remove pigmentary deposits, such as lentigo or freckles, chloasma, moth or liver spots, and has brought about most happy results.

In disorders of the excretions or excretory functions of the skin, such as seborrhea or dandruff, comedo or blackheads, hydrosis or excessive sweating (excessive sweating of the hands and feet, for instance) and seborrhea oleosa or greasy coating of the skin and scalp, it has proven to be a most active agent.

A number of cases have been reported in which **Dermapurine** has completely wiped out large crops of small warty growths in a very short time. We have reference to small growths that germinate out of the skin in large numbers, and are usually met with on the forehead and hands of children.

Physicians who have employed it to prevent syphilitic eruptions speak very highly of it, stating that it not only prevents further eruption to take place, but it also stimulates the glands and keeps up nutrition of the skin and keeps out syphilitic poison, so that ulceration will not occur.

A Physician in Your Own Home

This cup is a thoroughly scientific discovery, and a careful perusal of the reading matter which we send on application, will, we feel certain, convince you that we are in a position to give you the greatest medical discovery of the age. The results we are obtaining in diseases of all kinds are truly remarkable. Although the discovery is a comparatively recent one, still it is working marvels in all kinds of acute and chronic disorders. All the chronic cases using it at present are improving rapidly and every day brings us reports of cases completely cured. It matters not from what disease you may be suffering, the cup will benefit you, for it directly increases the healing force in your body. If it is possible for you to get well you will get well by using this cup, and it will not interfere with any other treatment, but on the contrary will assist it. There is nothing dangerous about the cup and a child can use it.

DESCRIPTION OF THE CUP

Each cup contains sufficient magnetism to lift a weight of 40,000 lbs. a distance of one foot, and its influence can be perceptibly noticed at a distance of over 30 inches. This claim may seem preposterous to the average reader, nevertheless it is a demonstrable fact. This immense force is passed through a tasteless solution of Magnetic Metal Salts which are prepared by a secret process, and every draught of this fluid, when drunk from the cup, conveys magnetic life force directly into the body and circulation. Patients who use these cups begin to pick up at once in vital force, every bodily function is soon restored to its normal state and health returns, no matter from what disease the patient suffers.

Every family, every invalid and everyone wishing to retain his health should possess one of these cups.

A new and practical system that parents can apply without a physician.

How to control the sex of an unborn child, to make it a boy or girl as desired, has been a riddle that men and women have wondered over since the world began. We believe that any husband and wife who carefully read this volume together, and apply the method suggested by Dr. Taber, will find themselves able to choose for themselves the sex of their future children instead of leaving it to chance. So nearly all the so-called diseases of women yield to Suggestive treatment, that it can be safely said that all functional disorders of the womb and ovaries, such as profuse, scant, irregular and painful menstruation, are readily and permanently cured, and fully one-half of those uterine and ovarian diseases said to require surgical operations are cured by Suggestion in a shorter time than the period allowed for convalescence after such operations.

THIS IS NOT A HOSPITAL.

Patients are made members of the Doctor's family during their terms of treatment, and when permissible are shown the many interesting and instructive points of interest of the National Capital, and their stay made as agreeable and profitable to them as can be, all patients being taught during their stay how to keep themselves well.

I do not teach Psychology except to patients; nor have I a mail course of instruction.

SPECIAL MAIL COURSE IN Hypnotism and Suggestive Therapeutics

By HERBERT A. PARKYN, M. D.

The most complete practical and comprehensible Mail Course of any sort to-day. It is the result of observation from the personal treatment of over 5,000 cases. These cases have been treated since most of the text books were published.

No text books are required with this course. It is complete in itself. This is not a type-written course of twenty or thirty pages. It covers nearly 400 pages of printed matter and the thirty-eight parts are neatly bound in cloth and gold.

HERBERT A. PARKYN, M. D.

PRINCIPAL AND FOUNDER OF

THE CHICAGO SCHOOL OF PSYCHOLOGY,

The first School of Suggestive Therapeutics established in America.

This Special Mail Course

has been published in order to satisfy the demands of many who are unable to spend the time or money required to complete a regular school course in Suggestive Therapeutics and Hypnotism. Over One Year was spent in preparing it for the publisher; and the flattering testimonials which are pouring in from all sides from those who have received it show that the time was well spent.

This work is different in theory and practice from anything taught elsewhere or published in books.

Everything is made so clear that a child could apply its teachings.

It tells what to do and how to do it: what to say and how to say it.

The course is printed on fine, hand-made paper, and consists of THIRTY EIGHT parts neatly bound in cloth and gilt, all of which are shipped at one time upon receipt of \$10.00.

WHAT THEY ARE SAYING!

Norman, Okla., Jan. 13, 1900.

Dear Doctor: I received your mail course sometime back, and to say I am perfectly delighted with it would be putting it too mildly.

I am surprised to know what a great help it will be to me. I have already used suggestion to much advantage.

THOS. W. EWING.

Centerville, Ill., Jan. 19, 1900.

Dear Sir: Your mail course in suggestion received and read with interest. While I have been a close student of suggestion for the past twelve or fifteen years, having followed carefully the theories of Bernheim, Moll Hudson and others, will say that I have never found so much practical information in any book or professional course as I have received by reading your thirty lessons.

J. S. TOWNSLEY.

Detroit, Mich., Jan. 10, 1900.

Dear Sir: I pride myself on having read about everything extant on hypnotism, mesmerism and kindred subjects. I have also made a point of studying the courses of lessons sent out by "Professors" of hypnotism at prices ranging from \$5 to \$100, but for practical utility I have found nothing which in any way compares with your special mail course in suggestion. All of the "Professors" give little or nothing in their courses which is of any value to the practice of Suggestive Therapeutics.

In your course I notice you have carefully avoided connecting occultism or mysticism with suggestion. Your object seems to have been to teach a practical lesson on every page and there can be no question

but that your purpose has been eminently accomplished. No person who takes an interest in Suggestive Therapeutics can possibly be up to date who has not digested your special mail course in suggestion. Yours sincerely,

J. LAWSON HALL.

Goldthwaite, Texas, Jan. 17, 1900.

Dear Doctor: I have patiently studied your mail course together with other mail courses in magnetism and hypnotism published by the several "Professors," and have read carefully the following books: Hudson's Law of Psychic Phenomena, Tuckey's Suggestive Therapeutics, Bernheim, Works on Christian Science, etc., but will say right here that I consider your mail course is the most complete of any that I know of.

I consider after careful perusal of most of the leading courses that the principles laid down in your special mail course are superior to any others.

E. M. WILSON, D. D. S.

Tacoma, Jan. 15, 1900.

Dear Doctor: I most heartily and voluntarily commend your mail course on suggestion as the only rational and practical method of suggestion and the only one which should be practiced by reputable physicians—or in fact anyone—who wishes to retain his self-respect and increase his usefulness. I speak from observation and experience, having been a student and practitioner of hypnotism for some time and having several mail courses in my possession, as well as the works of the leading operators along that line.

I congratulate you heartily, Doctor, on your excellent production. FRED W. SOUTHWORTH, M. D.

Chicago School of Psychology

INCORPORATED

The First School of Suggestive Therapeutics Founded in America.

Established June, 1896

HERBERT A. PARKYN M. D., Medical Supt.

Students in attendance at the Chicago School of Psychology.

THE CHICAGO SCHOOL OF PSYCHOLOGY was established June 15, 1896, for the purpose of teaching Hypnotism, Suggestive Therapeutics and the treatment of disease by natural methods. Our course is very complete and by a new system of diagnosis the practice of medicine is greatly simplified, so that our graduates are at once prepared to treat successfully **FUNCTIONAL DISORDERS**, such as Chronic Constipation, Dyspepsia, Diarrhea, Irregularities of Menstruation, Loss of Memory, Inability to Concentrate the Attention, etc.; **NERVOUS DISEASES**, including Locomotor Ataxia, Neuralgia, Nervous Prostration, St. Vitus' Dance, Epilepsy, Stammering and Asthma; **MENTAL TROUBLES**, such as Melancholia, Mania, Idiosyncrasies, Illusions, Delusions, Hallucinations, Stage Frights, Self-Consciousness, etc. **HABITS**, Liquor, Morphine, Cocaine, Tobacco, Muscular and Vicious; also Headaches, Rheumatism and Insomnia.

THE CLINIC. Nowhere in America has the student of Suggestive Therapeutics such clinical advantages as we offer here. We have no "horses" which are brought out for each class to practice on, but a clinic averaging twenty patients each day and conducted like that of a well regulated medical college. Our students are instructed in our special methods for taking the history of cases and arriving at a diagnosis, and are permitted to treat patients at the clinics.

Since this school was opened we have graduated nearly 250 students and over 4,000 patients have been treated by Suggestion alone. We are here to demonstrate the powers of the mind in overcoming diseases, and our students are able to determine what Suggestion can accomplish. Our treatment is not mixed with Medicine, Electricity, etc. These things are all right in their places but our students come here to study Suggestion and we teach it to them. The results we are obtaining daily by the use of Suggestion alone are but little short of miraculous. Course lasts two weeks and commences the first of every month.

DIPLOMA.

Every graduate is presented with our handsome steel engraved sheep skin Diploma, 11x18 inches in size.

READING ROOM. We have a fine Reading Room for students, with tables filled with the latest magazines and books. Our students receive their mail and write their letters at the school; in fact make it their headquarters while in the city.

PRIVATE TREATMENT. Patients desiring private treatment are placed under the personal care of the Medical Superintendent, Dr. Herbert A. Parkyn, and accommodations secured for them within a block of the school, which is situated on the finest Park Boulevard in America.

MAIL COURSE. In order to meet the demands of many physicians who wish to read up on Hypnotism and Suggestive Therapeutics, a correspondence course has been published. It contains the latest, simplest and best methods of inducing the Suggestive or Hypnotic condition; the proper application of Suggestion and the treatment of disease by natural methods. All the treatments prescribed in the course are those which have been found most successful in the work at **THE CHICAGO SCHOOL OF PSYCHOLOGY**. The experiments of this institution have upset all the old theories; have turned the searchlight of science upon old mysteries and made them open books; have paved the way for intelligent uses of the science; dispelled prejudices and are miles in advance of the work done by any similar institution in the world. Our work is up to date and we are still progressing. One advantage of our system is that patients under treatment never associate the methods with Hypnotism. The methods employed are radically different to those in conventional use and so simple that a schoolboy can understand their philosophy. The mail course is printed on fine hand-made paper and consists of thirty parts for which over two hundred pages are required. The course is so complete in itself that no other books are required. A diploma is also awarded to those taking an examination by mail.

For terms of school course, private treatments, instruction by mail, etc., address,

The Chicago School of Psychology,
